Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The cited prior arts do not teach or render obvious the invention as recited in the independent claim. The cited prior arts do not teach a mutation object comprising a method for mutating an object dynamically during run-time to provide a new implementation within the object, wherein the method of mutating includes changing a pointer from identification of a first method to identification of a second method..., when taken in the context of the claim as a whole. More specifically, the cited prior arts of record lack sufficient scope and implementation details to fairly teach or suggest the combination of limitations claimed in the instant invention when the claim element such as "mutation object" is interpreted in light of the applicant's specification (Specification, line 22 page 10 to line 24 page 11).

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andy Ho whose telephone number is (571) 272-3762. A voice mail service is also available for this number. The examiner can normally be reached on Monday – Friday, 8:30 am – 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, William Thomson can be reached on (571) 272-3718.
